Grants and Awards

1. The Prognostic Implications Of Fetal Nucleated Red Blood Cells In The Prediction Of Adverse Outcome In High-Risk Pregnancies.
Principle Investigator
January 1999 to July 2003
Leon Hess Medical Research Fund of Lenox Hill Hospital

2. Rapid HIV Testing In The Intrapartum Period
Co-investigator
July 1998 to December 1998
New York State DHHS and NIH funding
3. Survey of Fragile Families
Institutional Principle Investigator
August 1998 to December 1998
Ford Foundation Funding

Previous Research Experience

1. Cost-Effectiveness Analysis For Treatment Of Suspected Fetal Macrosomia In Mothers With Gestational Diabetes (2007 to present)
2. Cervicovaginal Fetal Fibronectin Combined With And Cervical Length As Predictors Of Preterm Delivery (2003 to present)
3. Studies on pathological placental findings in patients with various obstetrical interventions with C. Salafia at the Albert Einstein College of Medicine (1997 - 1998)
4. Studies on the predictive capacity of early gestational weight gain in pregnancies complicated by gestational diabetes at the Albert Einstein College of Medicine (1997 - 1998)
5. A study on serum lipoprotein(a) as a predictor of intrauterine growth restriction and preeclampsia with C. Salafia at the Albert Einstein College of Medicine (1997)
6. Meta-analysis of the potential benefits of prophylactic transfusions in pregnant patients with sickle cell anemia at the Albert Einstein College of Medicine (1997 - 1998)
7. Institutional review for creation of risk scoring system to ascertain determinants of shoulder dystocia at North Central Bronx Hospital of the Albert Einstein College of Medicine (1998)
8. Isolated Low Unconjugated Estriol in the Second Trimester as a Predictor of Adverse Pregnancy Outcome: A Descriptive Meta-analysis of Available Studies. Submitted to the 19th Annual Meeting of the Society for Maternal-Fetal Medicine (formerly the Society of Perinatal Obstetricians)
9. A presentation on "The Role of Polypeptide Growth Factors and the Medical Management of Uterine Leiomyomata." Presented at Grand Rounds for Columbia University College of Physicians and Surgeons, Harlem Hospital Center Department of Obstetrics and Gynecology. (October 28, 1992.)
10. A Study on Dietary Modification Following Nutritional Information Dissemination, "Calories by Choice?" Honorable Mention: Secretary of Health and Human Services Award for Health Promotion and Disease Prevention. (April 1991)

11. Investigation of "The Anti-neoplastic Qualities of Retinol -Derived Compounds in Immunosuppressed Mice" under Barry Gause, M.D., Department of Oncology, Howard University Hospital. (Summer, 1987)
